Dear Engelmann

First — Two, late, — best wishes of the Season to you & yours. Children Dear,

Thanks for letter of 26th ult. & for Boreal which came very lately

Plantago pusilla. Tot. Univ. with Rayn seed. I have never seen the original of P. elongata, Durch — (which is older than Nutt.) — It is just this plant of yours. Can it be got to be anything but P. pusilla?

As to Hymenopappus, Green had sent misled me. —

GEORGE ENGELMANN PAPERS

GEORGE ENGELMANN PAPERS

I. = Letterman, Jr., Aug. 1872. = I. tenuifolius, Nutt. clearly (not a form of artemisiæfolius)

"I. Nuttallii Butler, in I. corymbosus, good I know.

I keep the specimens - unless you wish to reclaim them.

You can buy for me any I. Letterman plants you think I should have.

The Geog Congress & Geol Survey Report - I have now that I have a clue to look for them. They are my "anomalous Dianthera parviflia.

I can't look again into these now. I put up your specimens to return to you.

Ruellia pedunculata, I should like to have it from Letterman

Mr Parkinson =

Case of pinus Bilfiana

of Boston Mass sent plants
distributed. the N. cultivation.

Many thanks for the seeds
& specimens — I will try
to have them raised &
care for. But I do
not know the Garden nur-
& Gardeners has too many
& too various irons in the
fire.

Yours

A Gray

My wife sends her
love. She will write
again — with

24th Jan 1883

My Dear R.

Yours of 11th came just after I left for Washington in its turn that of 17th. Thanks for the Egypt localities. Glad have Egypt and such things - Jim pays him a good ground price & let me respond.

Considering the poverty of the name, I should try to slide over Banks's name of Plantago Lindheimeri a

Thanks for notes. & Plantagos. You could send Coulter, if you like, notes on Plantago.

Had pleasant visit to Mr & to New Haven

BOTANIC GARDEN, CAMBRIDGE, MASS.

Hypericum sappanthus Butler. is a
very distinct species with decussate-clasping
leaves & lobes of corolla longer
than the stamens, capsule 4-
valved seeds, 2 0-2 mm.
I have only 3 sp. — viz. Hirtellum
glandulosum, well marked by papillose
& pubescence
connectives & decussation.
Nonsp. = prov. = like Texan spec.
of var. Nuttallii (which I can't keep
distinct), only more leafy & finer-
cut. But I do not rely on these
points much.

H. sp. — Lutherianum = Elodes
sp. (& Pinetorum & Nuttallii)
terminalium Buttonsp.
terminalium = filiformis
which = luteum — spec.
I had got out a little of
H. filiformis mixed up with
terminalium. The 1st is 4.
the 2nd tetramerous &
I have the following terminalium
filiformis with many which are

Red River, Arkansas, Nuttall
Big-blue & Fort Kearney, 1849. no. 70.
Fendler

Big Bend of Missouri, Hickley
upper Missouri Nicollet.
Cult. Fitzp. Mississ. River. Lettermann
Dallas "
St. Helena, Bridges
Mt. Smith x Natural, Bigelow

Hopkins has not been taken for
Carruthers
upper Missouri. Coues
No. 9 from Macoun.
" 612. Platte, Nevada. two
" 108 Wood. Utah.
" 220 Platte. Montana -

The 10 corollas of your Bard.
tube & lobes of anther
Trees & shrubs
Grasses cut long. the younger flowers
are all right.

I must stick to my
conclusion.

Yours ever,

Jan 24 1883 A Gray

My dear Engelmann

Yours of the 14th reached us yesterday. — Have Boral to-day, but being busy enough, I have not yet opened it. That will keep, but I must write you at once, to say = why our deep concern in what you write of yourself. We had no idea you had been so unwell. And I hope you will not try Bonn another winter in such a climate as St. Louis. Well, I am glad you are picking up again. But can you start for an ocean voyage so soon. It have to. We shall miss your visit a few days, but decidedly comfort, until something. But a good deal depends for steady occupation is what we looked for, and are sorry to have post poned. But we must take such things as they come.

Well, for myself. (Mrs Asa and I) went to Washington a month ago. Visiting in Newton

on the way back down end up a fortnight — Mrs. Gray came back with a bad cold and other ailments — loss of strength and irregular heart-action groundsman, — And I myself — get my digestion upset — or my brain weakened, — so that I have been part of [underline]half miserable[/underline]. Always when I am away for a fortnight it takes as much more to clear off accumulations — which otherwise do not get loaded up — So I have only now very lately got on to the regular track again, and I still have many outside bothers, — not one very much, but all together a load. However, I am now working along, & have made a beginning on Cichoraceae — that is the [underline]beginning of the end[/underline].

I hope I shall live to print them. But I feel myself ageing. — decidedly for on days I do not feel well.

MISSOURI BOTANICAL GARDEN
GEORGE ENGELMANN PAPERS

Yes. I have a (still unanswered)
letter from Darby, from St. Fe.
containing something to answer.

I attend to the sale of 40
copies of Genera Plantarum —
and now — The completing
part (vol. 3, pt. 2) a start
one, has just come. Shall
I send your copy by mail,
registered? I think on
Before I close this I must be
to know what the parts cost
a piece; and will let you know.
I have paid for the books in
England, and the duties — Mr
charges I shall get to-morrow.
But your copy costs in all
£ 1. 4. which at $4.87 = $5.84
duty 1/4 1.21
The Amount of freight & charges
Customs House & postage to you
will be 65
Say $7.50

I will write you again when
I have examined the parcel.

Tell your cousin I got to
like Hood light and wine. —

with very poppy taste. And whereas Mum is a good sample ready for market, I should suggest buying 10. galls. — which, sent by freight, would not cost much in transportation.

My wife joins in best regards and wishes to her and the friends. Ever yours

Asa Gray

Mrs. Gray owes to $7.50
Boston trip to 29

Mem had letter and P.O. money-order, Mrs. Tr $7.79.
And I send the copy
to-day

Asa Gray

I should have replied at once to your letter of 2d. But the Staphylea are absorbing. ☿

If you think of it, please give me your cousin's address. Looking at my stock I see it will last me thro' this summer. And next fall will be a better time for sending. And by that time I may get some one or more to join me, & take a small cask.

As to Clavers, I do not well know J. stolonifera. Ask Letterman to send me a good specimen with root & (Saturday Mrs. Gray & I went over to Sargent's.

You know his grounds &
sentiments. Mr Russell is very well
pleased. But they look
sick. Sargent writes
he may run in to see
you, in Newyork. i. e.
if you will not come to
see us, — write for a
day or two.

I am glad you are
"perhaps a little better".
I wish you could speak
more strongly, but hope
every day you will tell us
your favor.

My wife adds her
affectionate regards

Always Yrs

A. Gray
